Our reputable, dependable alarm monitoring services help ensure that emergencies are rapidly detected and addressed. When connected to your building automation system (BAS), **our alarm monitoring services help ensure the proper individuals and/or authorities are contacted— 24/7/365.**

### Personalized Service for All Your Alarm Needs

Our monitoring customers are assigned a dedicated account manager, helping ensure that you get the expert, personalized service you deserve.

**We can set up alarms for a full range of emergencies and events, including:**

- > Intrusion
- > Fire
- > Environmental
- > Equipment failure
- > Medical emergency
- > Gas build-up

### Comprehensive Monitoring Solutions

From installation to evaluation for new systems and expansions, we can handle all your alarm monitoring needs.

**Our robust service capabilities, including:**

- > Installing a new BAS with monitoring services
- > Connecting alarm monitoring to an existing system
- > Replacing your current monitoring company
- > Evaluating your current systems for compatibility
